

LilaniCo Company Profile

Efficiency in Motion

Established in 2020 and based in Karachi, Pakistan, LilaniCo. helps businesses plan and manage their shipments through freight forwarding, customs clearance, trucking, warehousing, trading and indenting.

About LilaniCo

Your cargo needs a shipping plan that fits your business. We assess your shipment requirements, identify suitable forwarding options and coordinate the services needed to move your consignment. Throughout the journey, we keep you informed so you can plan with greater clarity.

Our forwarding services cover exports from Pakistan and shipments between third countries. We have a significant forwarding role in animal feed and sugar exports from Pakistan, supporting customers with the logistics of these commodity movements.

Our 2025 milestone

4,000+ TEUs

Provided freight forwarding services for more than 4,000 twenty-foot equivalent units during 2025.

Membership and licence

PIFFA membership
Customs clearing licence

What you can expect

A plan shaped around your cargo, responsive shipment coordination and clear updates on progress. We work with you to understand your delivery priorities and coordinate each stage towards the agreed destination.

Our services

From international forwarding to inland movement and storage, our services help you coordinate the logistics your consignment requires.

Freight forwarding

We assess your origin, destination, cargo and timing requirements to identify suitable shipping options. We coordinate international cargo movements, including exports from Pakistan and third-country shipments.

Customs clearance

We assist with shipment documentation and customs clearance coordination, helping you address the requirements applicable to your consignment.

Trucking

We coordinate inland cargo transportation to connect your shipment with its next stage of movement and align transport arrangements with your logistics plan.

Warehousing

Our warehousing services support cargo storage while you plan and arrange onward movement, helping you coordinate shipment timing.

Trading and indenting

We assist with sourcing and commercial enquiries, connecting buyers and suppliers and coordinating their trading, indenting and related shipment requirements.

Export and international forwarding focus

Animal feed and sugar exports

We support animal feed and sugar exporters with forwarding coordination from Pakistan, aligning shipment arrangements with cargo readiness, routing and destination requirements.

Third country forwarding

Shipping between countries outside Pakistan? We coordinate third-country forwarding based on your cargo, route and delivery requirements.

Industries we serve

We work with customers across the following industries, adapting shipment planning to the cargo, route and delivery needs of each business.

Agriculture • Textiles • Power and energy
Cosmetics • Foodstuff • Cement • Pharmaceuticals

Request a shipment quotation

Share your shipment details and let us help you find suitable options for your consignment. Once you confirm the arrangements, we will coordinate the shipment, track its progress and keep you informed while working towards on-time arrival.

Send your enquiry by email or WhatsApp with the commodity, origin and destination, cargo weight and dimensions, container requirements, cargo readiness date and preferred delivery timeline.
